

The Queen's Head

Refurbishment Plans 2019

The Queen's Head will see a major overhaul and investment take place towards the back end of 2019. We have outgrown our current kitchen so the plan is to build a brand new commercial kitchen as well as adding a new garden room for our diners to enjoy. Don't worry, we're keeping the original charm and character of the place but just giving the old girl some well-earned TLC.

These are a few architect drawings of the proposed changes.
